

**Sick Of Your Students Being  
Grabbed By Recruiters?**

**BRING THE  
“WE ARE  
NOT YOUR  
SOLDIERS”  
TOUR TO  
YOUR SCHOOL**

**T**hey make war seem like a video game. But it's **real life** for the 1.2 million Iraqis killed since 2004. It's **real life** for Afghan civilians killed by U.S./NATO air strikes, or rounded up in the dead night and held indefinitely in Bagram Prison. It's **real life** for the over 6,000 U.S. soldiers killed, hundreds of thousands injured, and tens of thousands dead by suicide due to these unjust wars.

This fall will mark the **10th anniversary of 9/11 and the invasion of Afghanistan**, the now longest U.S. war ever. Even after the 30,000 troops that Obama has decided to withdraw are gone, roughly **68,000 troops will remain in Afghanistan, twice the number there when he assumed office.**

Once your students join this military, their life becomes killing – and maybe dying – to spread the U.S. Empire. **They are trained to kill and brutalize people in other countries.** This military is up to no good in our schools or our communities and **we want them out, NOW!**

**The World Can't Wait brings Iraq and Afghanistan veterans to classes to TELL THE TRUTH about the wars and WHAT THE MILITARY IS REALLY RECRUITING FOR. The vets talk about their on-the-ground experience in occupying countries, where civilians pay the price.**

This tour not only has the potential to convince a lot of youth not to join up, it is attempting to unleash a whole culture of resistance to military recruiting as a key part of stopping these wars.
