

**ARE THE U.S. WARS
ON THE MIDDLE EAST
WRONG BECAUSE
THEY COST SO MUCH?**

**OR ARE THEY JUST
WRONG, IMMORAL,
UNJUST, AND
AGAINST HUMANITY'S
INTERESTS?**

U.S. OCCUPATIONS, bombs, and secret operations have wreaked havoc in the Middle East since 2001, sold to the public on the basis of being in the “United States’ national interest.”

Rolling Stone reported that in 2010 the 5th Stryker Brigade’s “Kill Team” went on a shooting spree, killing unarmed **Afghan** civilians and mutilating corpses *for fun*, while U.S. NATO bombing raids kill even more civilians this year than last. The U.S. detains hundreds of Afghans in Bagram, without charges, lawyers, or rights... and **Guantanamo** remains open, in spite of Obama’s declaration over two years ago that he would close it as a stain on America’s conscience.

THE U.S. OCCUPATION of **Iraq** caused the worst humanitarian crisis of our time: over 4.1 million refugees over the last 8 years; 1.2 million killed; the wholesale destruction of the infrastructure, agriculture, electrical, and educational systems. Still in Iraq are 50,000 troops re-branded from “combat” to “advisers” and tens of thousands of private mercenaries at 17 permanent bases.

OBAMA HAS INCREASED unmanned drone attacks and secret operations in **Pakistan** and **Yemen**, killing hundreds
