

BECOME A PART OF WORLD CAN'T WAIT— SUSTAIN ITS WORK

**Join the resistance! World Can't Wait
needs to grow and can't do it without you.**

YOU DON'T WANT the only people protesting in the streets to be racist, pro-war "tea baggers"? You don't think war criminals like Bush torture lawyer John Yoo should be able to walk free?

You want instead to see people across the country bringing the crimes of this government to a halt? If yes, then become a sustainer and join the resistance to the crimes of our government.

Now is the time for people who care about the planet – and not just about American lives – to be in the streets protesting, and sustaining this vital organization. World Can't Wait has stuck with its principles, and is leading others to take meaningful, creative actions that challenge the wars, the torture state and the re-making of U.S. society in a fascist direction.

Here is your chance to take your outrage and your disappointment at "change you can believe in" and make a difference by supporting visible anti-war protest. We have an opportunity to make the change that no one in the White House or Congress is making. There is a reservoir of people out there who care about humanity, and who can do this, but only if challenged and mobilized.

BECOME A SUSTAINER: Sign up to financially support World Can't Wait online at our website worldcantwait.net or by calling 866-973-4463.

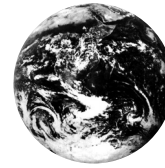

No monthly donation is too large or too small.

YOUR MONTHLY DONATION MAKES POSSIBLE:

An office full of volunteers: phone, internet, 4 websites, and snail mail costs, all of which we have honed to the bone, but which anchor a network of World Can't Wait organizers around the country working on our website and organizing events, speaking tours, and protests.

By the end of March, with your involvement, there will be a stronger resistance movement, able not just to pay the bills, but to expand our work via several great websites, two ongoing campus tours, and more visible protest.
